Python Language
Origin of Python
Python was created by Guido Van Rossum and was released in February 1991. Python got its name from a BBC comedy series from 70s- "Monty Python's Flying Circus".
It can be used to follow both, procedural and Object Oriented approach of programming. It is an open source language and free to use.
Python is based on or influenced with two programming languages: ABC(replacement of BASIC) and Modula-3.
Features of Python which make it popular
1. It is an object oriented language.
2. Expressive language.
3. Cross-platform language.
4. Free and open source.
5. Variety of usage/application.
Limitations of Python
1. Not the fastest language.
2. Lesser libraries than C, Java and Perl.
3. Not strong on type-binding.
4. Not easily convertible.
Tokens in Python
1. Keywords
2. Identifiers
3. Literals
4. Operators
5. Punctuators

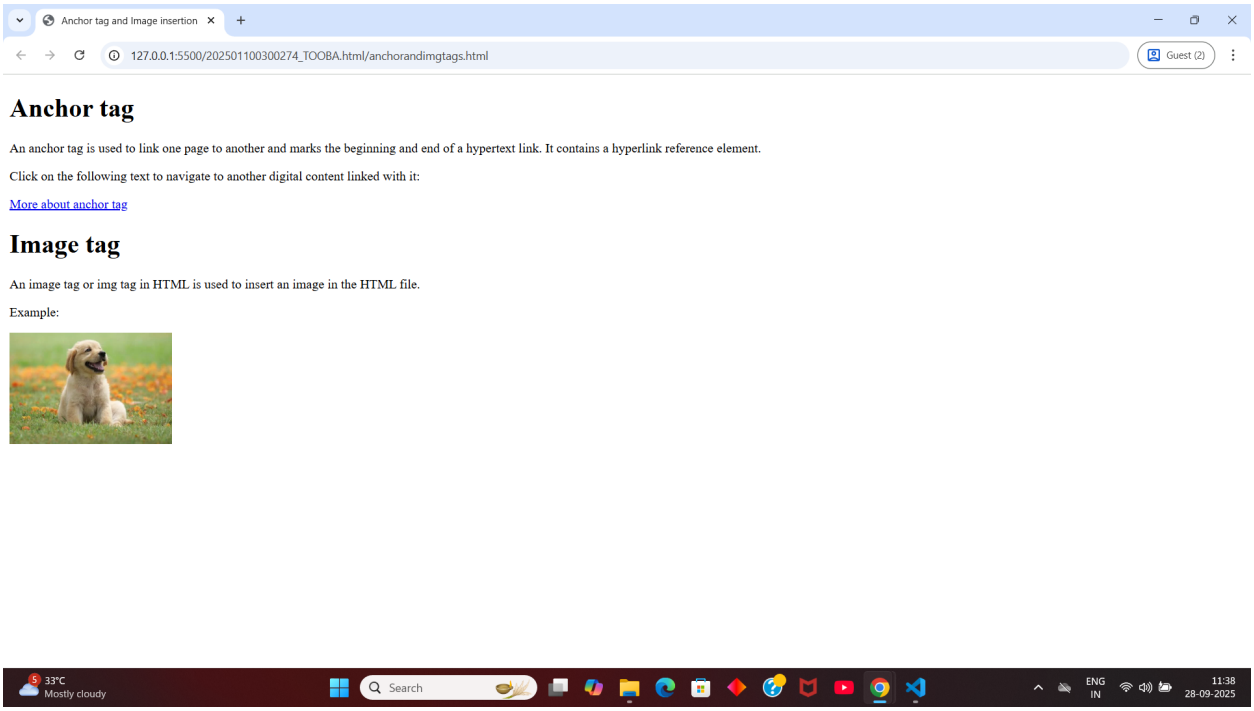
3. Anchor and Image tags

```
<!--anchorandimgtags.html-->
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Anchor tag and Image insertion</title>
</head>
<body>
    <h1>Anchor tag</h1>
    <p>An anchor tag is used to link one page to another and marks the beginning and end of a hypertext link. It contains a hyperlink reference element.</p>
    <p>Click on the following text to navigate to another digital content linked with it:</p>
    <a href="https://www.geeksforgeeks.org/html/html-a-tag/" >More about anchor tag</a>
    <h1>Image tag</h1>
    <p>An image tag or img tag in HTML is used to insert an image in the HTML file.</p>
    <p>Example:</p>
    <img src="https://encrypted-tbn0.gstatic.com/images?q=tbn:ANd9GcTMOe4diAdTsReCpt8oRN7e5IndmwpPy3sGjOkQ6VBflVg3YSIqvFu2UYHjMhWlWJDNawlxfUwfK36LJf8eFzWaXsGOAd3h2nT0beR_S51Dqg" alt="Cute puppy" width="200">
</body>
</html>
```

Output:



Anchor tag and Image insertion

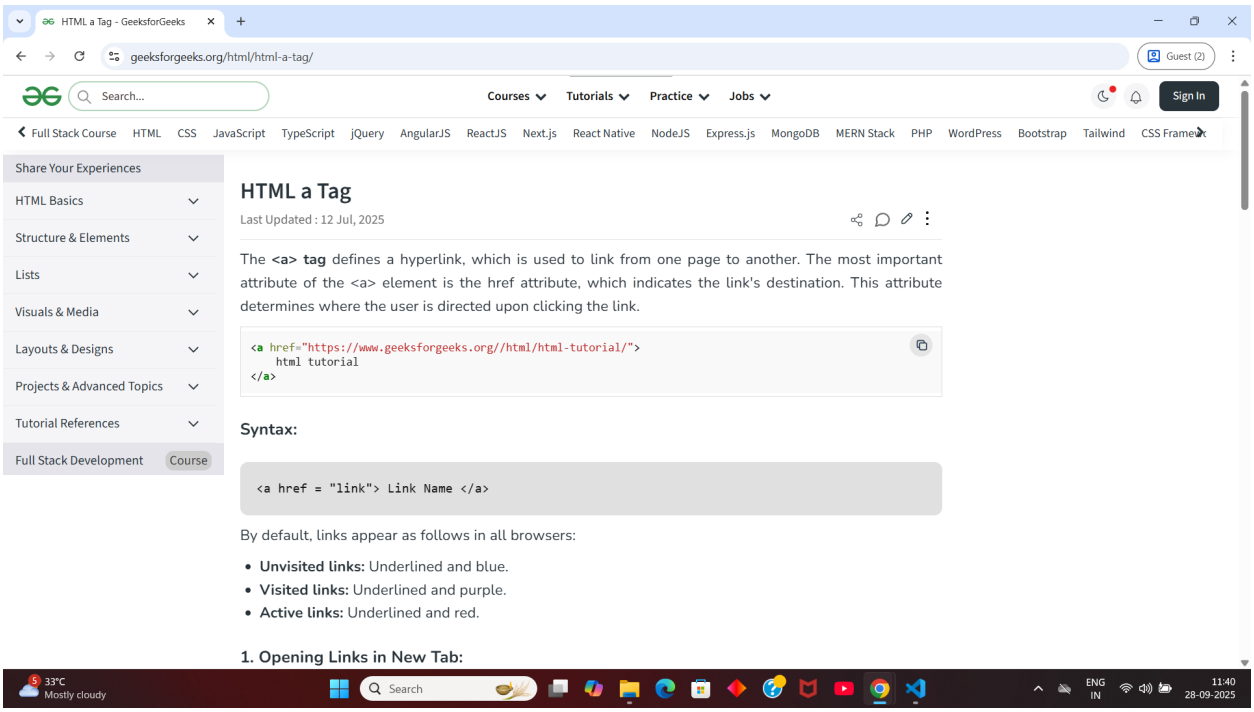
Guest (2)
Anchor tag
An anchor tag is used to link one page to another and marks the beginning and end of a hypertext link. It contains a hyperlink reference element.
Click on the following text to navigate to another digital content linked with it:
More about anchor tag
Image tag
An image tag or img tag in HTML is used to insert an image in the HTML file.
Example:
33°C
Mostly cloudy
Search
ENG
IN
11:38
28-09-2025

After clicking on “More about anchor tag”, it redirects user to the website linked to it; which is attached below in this case:



4. Ordered and Unordered lists

```
<!--olandul.html-->

Output:

Hobbies and Interests

I'm passionate about coding and working with artificial intelligence and Internet of Things. Besides these, I am into drawing, sketching and painting and hence have immense appreciation for art. I also love to read books, primarily fiction, and explore places with full of nature's essence which fill me with a peaceful sense of warmth. As for sports, I like playing kabaddi, badminton and chess though I know little about these and would love to know more in future.

My SWOC Analysis

Strength and Weakness

My strength lies in my discipline, confidence and patience. I can manage stress effectively, and can handle tough situations calmly and arrive on decisions which I believe prove to be better in the future. On the other hand, I cannot trust people easily and don't tend to express my true feelings everywhere, which I am trying to work upon.

Opportunities

I am looking for opportunities in technical field such as participating in hackathons and coding competitions, and joining a technical club as well as a few non-technical clubs for improving my soft skills.

Challenges

Since I have only tasted a drop of coding and there is an ocean yet to explore, hence getting better at it while also managing my time effectively for other activities is a challenge for me right now. In the long run, I see increasing layoffs and shrinking job opportunities in the IT sector as a challenge.

Challenges

Since I have only tasted a drop of coding and there is an ocean yet to explore, hence getting better at it while also managing my time effectively for other activities is a challenge for me right now. In the long run, I see increasing layoffs and shrinking job opportunities in the IT sector as a challenge.

Aim and Vision

I aim to be a flawless coder as well as a skilled engineer so that I can develop impeccable solutions to some real-life problems with the help of technology while also investing my time and efforts for the welfare of humanity.

My Works

You can check out some of my artworks which include sketches, drawings and paintings here:
